# SIGN GARMENT FACTORY PACT ORBIT SATELLITE AROUND SUN

## U.S. Experts Are Jubilant Over Success

### Powerful Radio to Relay Information About Deep Space; Use Thor-Able Rocket

CAPE CANAVERAL, Fla. (UPI) — A near perfect space shot today sent a beach ball-sized American satellite into orbit around the sun. Dr. Abe Silverstein, of the National Aeronautics and Space Administration, said in Washington the 94.8-pound aluminum sphere was on a path around the sun inside the orbits of Venus and the earth.

A jubilant scientist here said the launch by a three-stage Thor-Able rocket was as close to perfect as anyone could expect.

The satellite, Pioneer V, was designed to radio back to earth a wealth of information on radiation, cosmic dust and magnetic fields to be found in deep space. The silvery globe reached a

Champion Snow Man

A gigantic entry in West Frankfort's snow-man display is shown above with one of its builders, Dwayne Reed. Reed and his wife, Shirley, built the snowman in the yard at their residence, 306 South

## RESCUERS AT MINE FORCED BACK BY HEAT

### Encounter "Hot" Area 1500 Feet From En- tombbed Miners; Still Have Hope

LOGAN, W. Va. (UPI) — Rescuers battling for the fourth day to reach 18 miners trapped deep in a fire-scarred coal mine near here suffered another delay today.

A "hot" area about 1,500 feet from where the entombed men may have barricaded themselves was made impassable by intense heat, dense smoke and the absence of any flow of air.

West Virginia Mines Director Crawford L. Wilson, who earlier admitted "time is running out," said an attempt would be made to reverse the air flow and clean out the smoke.

"This should be accomplished by early this afternoon," Wilson said.

#### Still Holds Hope

The mines chief said the pocket of static smoke and air "shows a blockage of air and the men (trapped miners) may have shut

Sign Factory Agreement

Final agreements on financing and construction of a \$147,694 factory building here for the Rose-Maur Corp., Chicago, a subsidiary of the Smoler Bros. Corp., a dress manufacturing concern, were signed today by Rose-Maur officials, the Bank of West Frankfort and the West Frankfort Community Council. Shown watching (l. to r.) as Jerry Smoler, president of the Rose-Maur and Smoler Corporations, signs the contracts, are William Gill, manager of the West Frankfort Apparel Co., which will operate the factory here; Sol Greensweig, vice president and production manager of Smoler Bros.; George Lockard, president of the Bank of West Frankfort, and R. A. Bonifield, president of the Community Council.

## Agreement Reached for New Building

### Will Cost \$147,694 With Construction To Be Complete August 1; Will Employ 300

A new garment factory for West Frankfort, negotiations for which have been under way for several months, became a reality with the signing today of financing and construction agreements by officials of the Rose-Maur Corporation, Chicago, a subsidiary of the Smoler Bros. Corporation, and the West Frankfort Community Council.

A contract for the construction of a modern factory building on West Main street was also signed by Jerry Smoler, president of the Rose-Maur and Smoler corporations, with officials of the M.&M. Construction Company of Chester.

Construction on the \$147,694 building will, the contractor said, begin as soon as weather permits. The agreement calls for completion of the building by August 1.
